hiss is fully supported, and the idea is to keep only the most important parts. This is a basic HTTP server. It provides an interface between server applications (e.g. for BBS, or to allow remote network users to connect) and the HLDS protocol. This is a basic HTTP server. It provides an interface between server applications (e.g. for BBS, or to allow remote network users to connect) and the HLDS protocol. is HLDS's "in-game" mini-HTTP server, written in C. It takes over the same role as does in the HLDS server. It can be used independently, or together with the HLDS server, to host BBS. In November 2015, the band announced that they would be releasing their new EP entitled "New Light" on vinyl and digital formats. The release will be in partnership with Jay Foulke of Vinyl Me, Please and Tompkins Stylings. The band is releasing "New Light" on colored vinyl, and the color will be a part of the title as "new light". A preorder for the EP on colored vinyl was announced, and you can preorder the release now through the band's store. In the video above, you can check out the cover art for the EP, and hear a few of the songs. Listen to "New Light" below.
